EXPERIENCE

Data Visualisation |TATA (Forage):   Jul-2024
- Skilled in understanding and interpreting business needs to design effective data visualizations that drive strategic decision-making.
- Experienced in selecting appropriate visual representations (e.g., charts, graphs, dashboards) to clearly and accurately convey data insights.
- Delivered clear, impactful visual stories for data-driven decision-making.

CERTIFICATIONS

- **I participated in "Techno-Vision 2K23" a Hackathon organized by our college department.**

PROJECTS

Staff Scheduling
- Developed a staff scheduling system using Python, html, css and javascript.
- Ensured efficient shift coverage and adequate break allocation, contributing to timely project completion and team productivity.
- Optimized staff schedules to reduce payroll costs by preventing overstaffing and managing labor hours effectively.
- Identified and resolved scheduling conflicts, avoiding resource overlaps and ensuring balanced workload distribution across projects.

Blinkit Grocery Shopping Analysis
- Designed an interactive Power BI dashboard to analyze $1M+ in sales for a retail platform.
- Visualized key metrics: sales by outlet size, location, item type, and establishment year.
- Enabled data-driven insights with dynamic filters and user-friendly design.

HOBBIES AND INTERESTS

- Cooking , Cycling

STRENGTHS

- Trustworthy, Time Management, Team Player
